

Excellence in All Experiences

At Campus Federal, we strive to be a true financial partner to our members throughout all their financial stages of life. As one of the nation's first credit unions and one of the largest in the State of Louisiana, our philosophy of people helping people is the guiding force behind our service to our members and the communities we serve.

Regarding our financial status, the credit union reported a 2018 end-of-year net worth ratio of 9.01% or \$57,728,674 in net worth, regarded as "well capitalized" by our regulators. We generated a return on assets of 0.66%. We remain well-positioned with an asset size of \$641,066,716, which is an increase of 4.49% over 2017. Shares ended the year at \$581,226,835. Loans were \$474,704,406, which translates to a healthy loan to share ratio of 81.67%. As a not-for-profit institution, we strive for positive performance that allows us to continue to give back to our members in the form of competitive loan rates, higher dividends and expanded services.

We remain focused on engaging and building relationships with our members and continuing to provide excellent experiences. We continue to invest in the branch network, business services and technological advancements for our members. Our online banking offers advanced features like biometric login, snapshot balances, person-to-person transfers, instant member to member transfers and more.

On behalf of the Board of Directors, thank you for allowing us the opportunity to continue to provide you with meaningful solutions for your financial journey.
